PLC WorkShop for Modicon – 32 Bit

Feature-Rich WorkShop Outperforms the Competition

	PLC WorkShop for Modicon – 32 Bit	ProWORX 32	ProWORX Nxt
Windows Compatibility	Full 32-bit package designed and tested under Windows 95, 98, Millennium, NT, 2000, XP, Vista, and 7.	A mixture of 16-bit and 32-bit source codes. Unsuitable for heavy Windows usage and already obsolete for future 64-bit operating systems.	16-bit legacy product designed for Windows 3.1. Unsuitable for heavy 32-bit Windows usage. Cannot print under Windows 2000.
Product Upgrades	Regular product upgrades are available. Improved continually. You will be notified via email when new feature releases are available. You may request features for future releases.	Recalled after first release. Has since been re-released.	Obsolete since July 2003. No further software development.
Site Licenses	Keyless site licenses are available. No fear of tracking or losing hard keys; no soft key authorizations.	Limited options available. Difficult to change users and transfer licenses.	Limited options available. Difficult to change users and transfer licenses.
Customer Support	Support included at no cost for first year and through annual maintenance agreements thereafter. When contacting technical support, you will receive immediate and accurate solutions to your questions resulting in less downtime. You will have access to the engineers who designed the software packages.	Support must be purchased, and is not provided by the original software developers.	Limited support must be purchased.
Speed & Usability	Full 32-bit Windows allows for fast uploading and downloading of logic, data updating, cross-referencing, and printing. Ability to view multiple programs simultaneously online or offline.	Restricted to only two programs opened simultaneously, forcing users to save files to one specific location.	Slower functionality such as screen and data scanning, uploading and downloading, and saving.
NT Security Management (Windows Authentication)	Incorporates one-time, server-based security configuration, complete administrator control of all editing, save and load functions, documentation, program set-up, and auditing of all user operations.	Minimal security features.	No security features.
PLC Support	Supports the entire line of Quantum, Compact, TSX Compact, Momentum, 984, Micro, and 584 Modicon PLCs.	Does not support all Modicon PLCs, third party hardware.	Does not support all Modicon-compatible hardware and all loadable / executables due to size limitations.
